FOR IMMEDIATE RELEASE

RailPlan International salutes Mechanical Services Team in North Carolina on Safety Excellence

Raleigh, North Carolina, December 9, 2014 – RailPlan International’s Raleigh, North Carolina, Mechanical Services Team today was presented the **RPI Award for Safety Excellence** in recognition of the team’s outstanding safety performance in maintaining an injury-free workplace for more than 428 days.

“Safety is our number one focus; not only in all of our Mechanical Services shops, yards, warehouses and on board trains, but in each and every function that RailPlan provides,” said Terry B. Soesbee, President. “From providing facility management, locomotive inspection and testing for railroads and transportation agencies, to the engineering and manufacturing of modular systems, specialty products or complete railcar interiors, a culture of safety is ingrained in what we do and how we do it every day.”

Soesbee joined Jeff Mann, Deputy Secretary for Transit, Paul Worley, Director Rail Division and Allan Paul, Deputy Director Rail Division at the North Carolina Department of Transportation (NCDOT), and Jay McArthur, Senior Manager, State Corridors in Amtrak’s Policy & Development Department to honor the RailPlan Team and celebrate the safety milestone.

RailPlan’s team of 30 supervisors, mechanics, QMPs, QPs and DSLE trainers, cleaners, material control and administrative staff, work three shifts all year-round to

provide all heavy and light rail maintenance on the NCDOT's Piedmont Service trains.

About RailPlan International

With over 28 years of worldwide railroad expertise spanning **Consulting, Engineering, Manufacturing, Industrial Design and Mechanical Services**, RailPlan International has the talent and capabilities to take a project from concept through production and beyond. RPI services include:

- Consulting services ranging from procurement support, inspection and testing to complete new rail vehicle design and overhaul including technical publications
- Engineering and industrial design experts providing innovative product engineering and end-use system integration
- Manufacturing expertise including building innovative locally-produced modular systems such as ADA Toilets, Bedrooms, and complete railcar interiors including Cabs, Galleys, Dining Cars and Snack bars, and custom specialty products
- Mechanical expertise encompassing car and locomotive maintenance, management of rolling stock, training and certification, procurement, warehouse and facilities management, and testing and inspection ensuring full Federal Railroad Administration (FRA) compliance
